PROFESSIONAL SUMMARY

Final-year Bachelor of Information Technology student with hands-on experience developing full-stack web systems, mobile applications, backend CRUD modules, and BI dashboards. Skilled in Laravel, PHP, Flutter, Dart, JavaScript, MySQL, Firebase, Supabase, GitHub, and Power BI. Experienced in UAT, debugging, deployment support, and translating stakeholder requirements into functional internal systems. Targeting software engineer, programmer, web/app developer, and full-stack developer roles.

TECHNICAL SKILLS

Languages: PHP, Dart, JavaScript, Java, C++, Python
Frameworks & Platforms: Laravel, Flutter
Databases: MySQL, Supabase, Firebase, Amazon Web Services (AWS)
Tools & Technologies: GitHub, Power BI, DBeaver, Android Studio
Development Areas: Full-stack Web Development, Mobile App Development, CRUD & POS systems, Data Visualization, UAT, Debugging

PROFESSIONAL EXPERIENCE

ICT Intern | Perbadanan Usahawan Nasional Berhad (PUNB HQ)
Kuala Lumpur, Malaysia | Mar 2026 - Aug 2026

- Developed PreMAs (Preventive Maintenance System), including the core PME Audit module for technicians to record preventive maintenance logs directly in the system.
- Designed, coded, tested, and refined system features to support maintenance workflows and improve internal process visibility.
- Tested and deployed the application on Internet Information Services (IIS) server, configuring application pools and site bindings to ensure stable and secure remote access for users.
- Conducted User Acceptance Testing (UAT) with stakeholders, documented issues, identified bugs, and resolved system defects.
- Built interactive Power BI dashboards to visualize operational data and deliver business intelligence insights.

IT Intern | Pengurusan Air Pahang Berhad (PAIP HQ)
Pahang, Malaysia | Feb 2023 - Jul 2023

- Developed an internal mobile application using Android Studio and Firebase for staff vehicle booking and reporting.
- Built backend functionality with PHP and MySQL, including full CRUD operations for user and booking data.
- Performed application testing, debugging, and UAT to improve stability and readiness before deployment.
- Collaborated with users to validate booking workflows and resolve functionality issues during testing.

PROJECTS & ACTIVITIES

Gula Ombre Ordering System - POS & Online Ordering Web System | Final Year Project
2026

- Developed a full-stack POS and online ordering web system to support order placement, transaction flow, and business operations.
- Applied web development practices across frontend, backend, and database layers to deliver an end-to-end ordering solution.

PUNB Corporate Operational Dashboard | Data Visualization Project
2026

- Designed interactive professional Power BI dashboards to visualize complex operational data for management decision-making.
- Integrated data sources, handled data modeling, and wrote DAX queries to deliver clear business intelligence insights.

Student Talent Profiling App | Bronze Medal, Digital Innovation Symposium (DINS)
2025

- Built a cross-platform mobile and web application using Flutter and Supabase to manage and profile student achievements.
- Implemented database-backed functionality to capture, organize, and present student talent and achievement records.

Program Sulam: AI and Machine Learning | Project Executive
2025

- Led development of a gamified, interactive web application introducing AI/ML to secondary school students.
- Integrated core Machine Learning features into content using AI Studio Code.

EDUCATION

Universiti Tun Hussein Onn Malaysia (UTHM)
Bachelor of Information Technology (Hons) | CGPA: 3.38 | Parit Raja, Johor | Oct 2023 - Dec 2026 (Expected)
Politeknik Sultan Mizan Zainal Abidin
Diploma in Information Technology (Digital Technology) | CGPA: 3.60 | Dungun, Terengganu | Jun 2020 - Jul 2023
